

All existing users of AEW series wireless products in Audio-Technica's **E** and **F bands*** now have the option of having their equipment converted for use in either the **C, D or G band**. This process will ensure that owners of AEW series wireless products can continue to use their equipment beyond 2012 within the band of their choice.

*Other frequency bands will **NOT** be accepted.

The frequency bands to choose from when modifying your equipment are:

C-Band	541.500 - 566.375MHz
D-Band	655.500 - 680.375MHz
G-Band	721.500 - 746.375MHz

Contact Audio-Technica **directly** to find out which band is best for you.
