

**The Disability Discrimination Act** is in place to ensure that venue owners/managers make the necessary efforts to accommodate all people regardless of their disability. For almost three decades, a multitude of venues have chosen Sennheiser Infra-red Transmission Systems, for our superior audio quality and reliability.

# DDA 400

## IR transmission system

400m<sup>2</sup> coverage

### WHY?

In order to simplify the purchasing of IR assisted-hearing equipment, we are offering a packaged solution. This case is everything a venue requires in order to meet DDA requirements for the hard of hearing in a simple portable package. This system has an approximate coverage of 400 m<sup>2</sup>
